NUMBER 297.

Another Immense School Building

Norwood, This Time, Will be Favored With Educational Facilities—Board Last Night Decides to Build Twelve Room School

The growth of the city of Edmonton is nowhere better illustrated than in the phenomenal growth of her school population and in the remarkable series of building operations that have been found necessary in order to keep the accommodation some where within range of the demand, although probably no other city of its size in Canada has such a magnificent string of educational institutions as Edmonton, and notwithstanding that the Alex. Taylor school, which is to cost \$25,000, has only just been commenced, the school board decided last night to undertake at once the construction of another school, a larger one than any yet erected in the city. This time it is the north end population that is to be reached and the school is to be somewhere on the Norwood estate, where it will be in all probability be 30 or 32 rooms, and while the cost is not yet even estimated, as the board has merely decided on building and has not reached the stage when plans are to be prepared, the apparent intention is that it will not cost less than the most expensive school in town at the present time.

The difficulty of completing any large building within a specified time seems to be the greatest obstacle with which the school board has to contend in providing accommodation for a permanent seat as fast as the growth of the school population demands. The Alex. Taylor school, for which there is already a building, will require all of the present year to complete construction. It is the intention of the board to build the new Norwood school concurrently with the Taylor school.

The decision to build was reached at the first regular meeting of the Norwood school board for 1907, which was held last evening in the McKay avenue school. All the members were present except trustee Gray. Mr. A. Taylor was unanimously elected chairman for 1907. The principal matter of interest was the superintendent's report with respect to the enrollment. The number of new pupils admitted to the primary department to date is 36. The other grades to 20, which makes an increase of 79 pupils. A rather large number of newcomers admitted to number for this time of the year.

The Norwood attendance assumes the engagement of a third teacher. The superintendent recommended:

Queen's avenue.....	49.5
McKay.....	42.4
Syndicate.....	42.8
Norwood.....	42.8

The Norwood attendance assumes the engagement of a third teacher. The superintendent recommended:

the relieving of congestion at Queen's, avenue by extra accommodation rather than by a redistribution of pupils, the other three schools have a sufficiently large enrollment for good work now, and they will not doubt receive steady increases throughout the season.

The board decided to purchase a small site between Queen's avenue and No. 2nd, to erect on it a two roomed school. In the meantime another class will be opened in the main room of Queen's avenue school. The two rooms to be built will probably be required by Easter. The payment of substitute teachers was discussed and it was decided to increase the pay from \$2 to \$2.50 per day.

The superintendent was instructed to prepare an annual report for the board. This will be ready in February or March. The board are taking energetic steps to help along the convention of trustees to be held in Edmonton on the 24th and 25th of January. The chairman is one of the provincial executive selected by the department to prepare the program for its first meeting. The delegates appointed to the convention are Dr. Ferris and H. C. Taylor. Dr. Ferris has been requested to give an address at the convention dealing with hygiene sanitation and medical inspection of schools.

A committee was likewise appointed, consisting of the chairman, Dr. Ferris, J. McCaig, to co-operate with the school board for the purpose of entertaining the visiting trustees on the evening of the 26th. Mr. McCaig, who is secretary for the convention, reports that the program for the convention is taking shape satisfactorily. A strong list of subjects will be discussed and the committee are receiving very hearty cooperation in preparation of addresses by those who have been asked to co-operate, and there is every promise of a highly profitable meeting. The principal matter of the program will be announced later.

DEATH OF MR. ROBERT ELLIOT.
The death of Mr. Robert Elliot, principal of Ponks school, which occurred yesterday at the Misericordia hospital, is particularly sad because of the circumstances.

The deceased was a young man, thirty-one years old, who had come west only four months ago in hope of bettering his health and securing the principality of Ponks school last September, one month later he came to the Misericordia, but small hope was entertained for his recovery. At a consultation recently it was decided that the patient could not hope to live, his mother was sent for and she was with her son when he died.

This afternoon after a brief service, conducted by Rev. Mr. Gray, who attended the young man spiritually for some time, the body will be taken to the train and the sad homeward journey begun. The home of the deceased was in Warkworth, Ont.

DUMPING CLAUSE DOES NOT APPLY

Canadian Farmers Can Buy Hinder Twice Wherever They Can Get it Cheapest

Bulletin Special.
Ottawa, Jan. 10.—In the common talk today Mr. R. L. "Horden" asked for some further information concerning Mr. Hymen. He pointed out that there had been no formal resignation of the seat, and that although the resignation of the portfolio was regular and received by the premier, it had not been forwarded to the Governor General. Sir Wilfrid Laurier said that he had had no communication from Mr. Hymen since the house adjourned for the holidays. He did hear from one very close to him and he was sorry to say that Mr. Hymen's condition was "bad." The resignation was a serious one. The premier was not yet without hope and therefore without the opposition for a little more delay. The tariff resolutions were then taken up in committee of the whole. The finance minister said that there were no changes that he desired to make to the resolutions. Cream separators have been on the free list for some years notwithstanding the fact that they are manufactured in Canada and they have to be manufactured in Canada in competition with the world. It was shown by the tariff commission that the foreign makers of separators were sending goods into Canada in such a way as to drive the Canadian manufacturers to the wall. While the Canadian manufacturer had to compete against the world it was not right that he should have to be content with the class of competition which he had mentioned. Mr. Bourassa wanted a moderate protection, but he did not think that the Canadian farmer should pay for any more protection in this line.

Mr. Henderson (Halt) thought the tariff protection and wanted a duty on separators.

Mr. Fielding pointed out that the farmers asked for no such duty. The dumping amendment was adopted. Mr. Fielding moved another amendment to the same section providing that in addition to goods already specified in the resolution as being exempt from the dumping clause should be added binder twine. He said this was done because they found that a considerable export trade was done by at least two Canadian companies to the United States and the dumping duty was imposed it would conflict with the American tariff and lead to the Canadian export trade being shut off.

Mr. Foster and Mr. Cockshutt did not approve of the amendment. It was done in the interests of only one of the manufacturers. They wanted to know what the other ten had to say about it.

WANT WELLAND CANAL ENLARGED

Montreal Grain Exchange Petition to Have Lower Canal Made as Large as Sae

The managing committee of the Montreal grain exchange are petitioning the government to make enormous expenditures on the improvement of the lake route. They state that in view of the rapid increase in the production of grain in the provinces west of Lake Superior it is important that facilities for transportation to eastern markets should be proportionately increased and they therefore ask that the Welland Canal be enlarged to pass any vessel which passes the St. Lawrence, Marie canal.

BURNED

Duquesne, Iowa, Jan. 10.—Mrs. Mary Gillett, aged 76, and Peter Rizzo, aged 44, were burned to death early today when a Italian boarding house was destroyed.

ARCHBISHOP MONTGOMERY

San Francisco, Cal., Jan. 10.—Archbishop Montgomery died this afternoon. Deceased was Bishop Coadjutor of San Francisco since 1905.

EXPECT A RUSH TO WESTERN CANADA

Passenger Traffic Managers Out of Twin Cities Preparing for Strong Stampede

Bulletin Special.
Minneapolis, Jan. 10.—Passenger traffic out of this city north has not been over-active since the holidays. In fact, local ticket men report that passenger business has been anything but a burden. Trains not exceeding eight coaches are running over the Soo and Northern Pacific towards Winnipeg, while those over the Soo for Moose Jaw average ten, including the through sleepers. W. B. Chandler, general ticket agent for the Soo, said:

"Railroad men expect a slight jump in passenger traffic during the first few weeks of the new year. There is every reason to believe, however, that the rush now on for spring will make that make up for the present inertia. We know of hundreds who have arranged to go to North Dakota and thousands will invade the Canadian west when the winter has disappeared. This movement will start about the last of February, as a majority have already purchased and across the line and are anxious to get on the ground in ample time to prepare for the spring snowing.

"We have already begun to take a dozen big parties to Canada intact. They will travel with their household goods and some will even take farm machinery. Northwestern roads have been greatly hampered this winter with heavy snow in Minnesota and North Dakota. Time and again trains have been thrown off schedule, some of them arriving at their destinations as much as thirty or forty days late. Thousands of laborers have been at work, however, and unless other heavy storms visit the northwest, it is not expected that any further difficulty in this line will be experienced. The Northern Pacific, Soo and Great Northern are laying in rolling stock in the Twin cities to be in readiness for the spring rush northward. Beginning early in March many of the trains will be run in two sections in order to take care of the business. Land agents here have reaped a harvest this winter by the sale of Canadian land and are now arranging to transport their customers to the land of promise.

BEAUHARNOIS CANAL LEASED

Will Supply Power for Valleyfield and Montreal Mills—Government Controls Rates

Ottawa, Jan. 10.—The Dominion government has leased the Beauharnois canal to Messrs. Robert and McIntyre, of Montreal, for power development. The canal has been a bill of expense upon the Dominion. The leases assume the cost of maintenance, \$20,000 a year, and must make an immediate expenditure of \$60,000 and outlays from time to time. They will have to pay the government a rental of \$12,000 a year and will have to supply power to Montreal, Valleyfield and other municipalities at rates subject to the control of the government. In this way the municipalities will get cheap power.

MORINVILLE RECOGNIZED

Opened as a Regular Station Today With an Agent and Telegraph Office.

Morinville is being opened as a regular station today by Mr. Hamilton Douglas, who has been the night operator at the C. N. B. station for the past two months, as agent. Express and telegraph business can now be handled for Morinville.

SHORT-ORDER JUSTICE.

Man Who Shot Pavlov on Wednesday Was Sentenced on Thursday to Hang

St. Petersburg, Jan. 10.—The murderer of General Pavlov, who was shot yesterday, was tried by court-martial today and sentenced to death. He will be hanged.

CONSUL GENERAL PASSES AWAY.

Washington, Jan. 10.—Information has been received of the death at St. Catharines, Ont., last night of General Sir John Patterson, formerly consul general at Calcutta.

THEY NEED THE MONEY.

Cleveland, Ohio, Jan. 10.—Standard Oil Co. today advanced gasoline, testing 88 degrees, from 22 1/2 to 23 1/2 per gallon.

REGISTERED BRANDS ARE TOO NUMEROUS

Alberta Has Thirty-four Thousand of the Fancy Holographs on the Stock Books

Bulletin Special.
Medicine Hat, Jan. 10.—The brand commission, composed of three representative ranchers from Alberta, and an equal number from Saskatchewan, appointed by the respective governments of the two provinces has concluded a meeting held here for the purpose of inspecting and passing upon twenty-five new brands which it is proposed to issue. The commission was composed of Messrs. A. B. Macdonald, of Claresholm, Walter Huxvald and A. J. Day of Medicine Hat, representing Alberta, A. K. Spraggs of C. E. U. Williams of Maple Creek and J. W. Brown of Lacombe, from the province of Saskatchewan. The commission approved of the system being followed of uniting ten letters of the alphabet, and a design such as a bar, half diamond, etc., to form an adequate, simple and lasting brand, in which there are now some 34,000 in existence, was discussed at length. It appears that there is at present no adequate machinery for the cancellation of unused brands, except a clause in the old ordinance giving power to cancel, if evidence is produced that the brand has been discarded for two years. Such evidence is not easily obtained and the commission decided to propose a bill of provincial governments the absolute necessity which existed for more advanced legislation in this respect. The idea is to have existing brands cancelled and then have a re-allocation for a term of four years. Such a scheme would tend to prevent a recurrence of the present difficulty which confronts the brand office of officials, viz., the almost total exhaustion of legible brands. Many of the brands issued under the old territorial regime are not being used. Through cancellation and re-allocation, the brand office would be put in possession of the required information regarding them. It is proposed to have a registration fee fixed in connection with the re-allocation.

THE BUSTED BOOMSTERS.

San Francisco, Jan. 10.—Drafts drawn on the L. Sullivan Trust Company, Goldfield, a noted concern, which recently spent hundreds of thousands on full page advertisements in American papers, were protested yesterday and Peter rain, treasurer, today admitted that the company is financially embarrassed, though claiming to be solvent.

Sullivan and Grant, former Portland gambler king, promoted the Grant-Sullivan claim at Goldfield. They have made a fortune of \$1,000,000, as a result sold mining stock all over the country. Grant claims a million in assets, but all the evidence points to have left Goldfield. Sullivan stocks went down badly in the local exchange today.

TO BE TRIED A SECOND TIME

Young Man Charged With Abducting Daniel Will Answer in Edmonton

Mr. H. Shah, who gained such notoriety last fall for the abduction of Miss MacKenzie, a young girl of Penhold, and who was afterwards captured and tried before a justice of the peace and acquitted, will be tried again at the K. W. M. P. barracks, Edmonton, next Tuesday.

The warrant for his arrest was taken out a few days ago and handed to the R. W. M. P. here, who have sent the warrant to Red Deer for execution.

The reason for the second trial, it is said, is that the justice of the peace who tried him, exceeded his jurisdiction in attempting to summarily find instead of merely hearing to commit for trial. The justice of the peace before whom the preliminary hearing was conducted was of the impression that it was his duty to summarily try the man and proceeded to do so, finding him not guilty. Under the act he has no authority to go farther than to declare whether or not there was a case against him on which he might be sent to a higher court for trial.

INSURANCE COMPANIES.

San Francisco, Jan. 10.—Judge Hedden, of the superior court, decided today that under the earthquake clause no claim should be included fire damage resulting directly from earthquake. If the supreme court upholds Judge Hedden, Williamsburg City Fire Insurance Co. defendants in the present suit, need pay no insurance, where the company can prove fire would not have occurred but for the earthquake. The decision is particularly important as a test case.

FRANCHISE OR PARTNERSHIP?

The Plaine dealer says: "The question of the moment in the civic economy of Strathcona is the prospective telephone system. Citizens are all agreed that one system for Edmonton and Strathcona is desirable but there is a difference of opinion as to whether the city of Edmonton should be granted a franchise by Strathcona or that the ownership of the system should be joint between the two corporations. The council of 1906 favored the franchise idea and made a provisional agreement with the city commissioners with that in view. It is perhaps not too late to set aside that provisional agreement and negotiate joint ownership if the city of Edmonton is agreeable and the ratepayers of Strathcona indicate their preference for that kind of an arrangement, but is it advisable to do so?"

The Plaine dealer favors giving Edmonton the franchise, arguing that the Lorimer system is more or less of an experiment and that it is better for Strathcona to let Edmonton do the experimenting.

TESTIMONY FROM THE ENEMY.

The annual review published from the office of the Montreal Gazette bears testimony to the splendid progress of Canada under the administration of the present government—testimony the more remarkable that it is tendered by the statistician of the senior Conservative organ in Canada.

The opening sentence says: "The tide of Canada's trade has flowed through the year 1906 in ever-increasing volume. Prosperity has abounded. Foreign trade, domestic trade, railway traffic, bank deposits, bank clearings, note circulation, immigration, industrial development; in short, every index of material growth has reached a new mark in the ascending scale. The achievements of the past, upon the theme of congratulation, have all been dwarfed and made to appear puny. Indeed it is doubtful if any other country can match the record of Canada during the year in material progress."

On another page the writer says: "In the last ten years Canada has developed materially and commercially in an infinitely greater degree than in her whole previous history; out of all proportion also to the growth of population. Ten years ago the population of the Dominion was approximately 3,100,000, while today it is about 6,200,000, an increase in the period of practically 25 per cent. How insignificant is this ratio of growth compared with that of the wealth and commerce of Canada as measured by the bank returns? Bank capital in the decade has increased 50 per cent.; the reserve of profits, 150 per cent.; note circulation, 250 per cent. Public deposits in the chartered banks in 1906 were \$28 per head of population; they are now \$93 per head, and in this single fact is perhaps as striking an example of the prosperity of Canada as can be found."

The Gazette man has discovered the sufficient answer to the "blue rain" prophecies of his political friends when Mr. Fielding delivered his first budget speech; and the sufficient reason also why the debate on the last budget lasted only six hours. The figures are Mr. Fielding's arguments.

THE DUMMIES.

A few weeks ago when the fuel shortage in some sections of the prairie country began to assume something of the appearance of a fact, the Conservative press of the West rivalled their Liberal contemporaries in commiserating with the suffering settlers and in demanding that steps be taken to prevent a recurrence of the shortage. The Lehigh bridge strike, they asserted, was, cause of the whole trouble and the government, federal and provincial, were

condemned on the one hand for not aiding the mines and on the other for not cooing the miners. Taking their cue from the impotent resolution of the member for McLeod and disregarding altogether the speech to which he alluded the resolution, the Conservative journals bestowed columns of denunciation on the government, producing as a background for their fury and an evidence of their deep concern black-headed articles announcing the dire straits in which the people of the prairie towns were placed.

When the time for off-hand assertions was over however and the evidence began to come in as to who was really responsible for the situation the interest of the Conservative press in the first allegation began to wane and the more rapidly the evidence accumulated the more rapidly the interest waned. What had formerly been represented as a fuel "famine" impeding the lives of the settlers and their families shrank speedily into a "scarcity of fuel" which was very inconvenient and inflicted "hardship" on the settlers, but singularly lacking in the fatalistic probabilities which characterized the earlier representations of the situation.

More significant even than this dwindling interest in the situation was the absolute and unanimous failure of the Conservative press to shift the responsibility for that situation to the railway company to whom it rightfully belonged. Ignoring alike the direct and responsible charge of the Frank Board of Trade and the volume of supporting evidence which has since been produced from a variety of equally reliable sources, the Conservative journals of Alberta have engaged in a conspiracy of silence and refused to attribute to the Canadian Pacific Railway Company any share or shred of responsibility for a situation it could have averted and in which the same Conservative press a month ago professed such pained concern. No Conservative journal of prominence in this province has as yet either assailed the Company for its responsibility or admitted that it had any responsibility. Their silence fully confirms the charge that they are at a month ago. Then they posed as the defender of the public from the rapacity of coal miners and the indifference of governments, today, in their silence they stand before the people of the province convicted as a phalanx of dummies sheltering the rapacity and indifference of the Canadian Pacific Railway Co.

January 12th--TWO WEEKS--January 26th.

REMEMBER THE PLACE.

TAKE NOTICE that an application will be made at the next Session of the Legislature of the Province of Alberta, for an Act to incorporate a railway company to be called the Canadian Northern Alberta Railway Company, with power to construct and operate a line of railway from a point at or near Edmonton and thence by the most feasible route to the summit of the Yellow Head Pass, with the powers usually given to railway companies.

Dated at Toronto this 15th December, 1906.

GEORGE F. MACDONNELL,
Assistant Solicitor for Applicant.

GOVERNMENT OF THE PROVINCE OF SASKATCHEWAN.

Public Works Department.
Sealed tenders will be received up to 4.30 p.m. of MONDAY, February 4th, 1907, for the erection of a Land Title Office Building at Regina, Saskatchewan.

The building will be about 80 ft. x 30 ft. reinforced concrete fireproof construction, out stone facing and two stories in height and other details to match this style of work.

The plumbing, heating and ventilating and electric light wiring will not be included in this contract.

Each tender must be accompanied by an accepted cheque or other satisfactory deposit for the amount of \$5,000.00.

This deposit will be forfeited if the tender fails to execute the contract and bond when requested, and will be returned when the contract and bond is signed and the work is commenced.

The deposit of unsuccessful tenders will be returned when the contract is signed.

The right to reject any or all tenders and to waive any defects or irregularities therein is to be at the discretion of the Commissioner of Public Works.

Plans, specifications, form of tender and all information may be obtained on application to the undersigned.

The unauthorized insertion of this advertisement will not be paid for.

F. J. ROBINSON,
Deputy Commissioner of Public Works.

Department of Public Works,
Regina, Dec. 2nd.

NOTICE TO CREDITORS AND OTHER CLAIMANTS against the estate of Stephen Albert Smith, deceased.

All Creditors, Next of Kin, Legatees, Devisees and other claimants against the estate of Stephen Albert Smith, late of the vicinity of Edmonton, deceased, must send in their claims with full particulars and verified by a Statutory Declaration to Messrs. Beck, Emery, Newell & Bolton, of Edmonton, Alberta, Advocates for the Administrator, before the 30th day of March, 1907, after which date the administrator will distribute the assets of the estate, having regard only to such claims of which he has then notice.

Dated at Edmonton, Alberta, January 8, 1907.

BECK, EMERY, NEWELL & BOLTON,
Advocates for the Administrator.

UNCLE SAM'S PROSPEROUS YEAR

Washington, Jan. 9.—There is no occasion for alarm. Our only anxiety used to be that we had facilities to properly garner, store, transport and market our multiplied blessings. Let every man be of good cheer, and try to be conservative in everything except thankfulness.

The secretary of the United States treasury thus concludes a resume of the year's financial record, which he says has been prepared in response to multiplied requests. In round numbers he places the receipts for the calendar

year of 1906 at \$225,000,000 and the expenditures of the same at \$240,000,000 or an excess of receipts over expenditures of \$15,000,000. As there has been no change since the tariff laws nor the laws relating to internal revenue, Secretary Shaw says the large increase in receipts is due solely to extraneous financial activity. The total expenditure, however, for 1906 as compared with 1905, he says shows a decrease of but \$5,000,000.

Discussing the finances of the government for the six months of the present fiscal year just closed, the secretary says that the books of the treasury show surplus over expenditures of \$25,000,000 as compared with a deficit of \$2,000,000 for the corresponding months of the previous fiscal year. The cash in the treasury is \$190,000,000 as compared with \$171,000,000 a year ago, an increase of \$19,000,000.

The cash in the National bank deposits is \$159,000,000 as compared with \$95,000,000 a year ago an increase of \$64,000,000 and the total cash in the general fund is \$156,000,000 as against \$241,000,000 a year ago. Against the cash there are liabilities at the present time of \$13,000,000 greater than at the same time last year. The available cash balance has increased during the year \$10,000,000. With the general fund standing at \$27,000,000 Secretary Shaw remarks that the books reflecting July 1, 1907, can be paid. It shall be deemed

that the holders would accept payment at this time because they are of the claim that sure for little less than certainty of security and exemption from taxation. Mr. Shaw says he has thought best, however, to leave his successor the discretion of paying these bonds at maturity, or of refunding such portion as he may deem appropriate.

During the last twelve months, the secretary continues, the money in actual circulation exclusive of the amount in the treasury vaults, has increased over \$200,000,000. Of this increase \$165,000,000 is available for bank reserve and \$35,000,000 is in National bank circulation. "This," he says, "seems to be a complete answer to the oft-reported and ill-justified criticism that the independence treasury system necessarily results in contraction when money is most needed." As to the currency system of the United States, Secretary Shaw says that in his judgment it permits adequate expansion, but that the weakness is the failure to produce contraction. The volume of the money, he contends, does not respond to the volume of our business. The annual increase, he adds may be sufficient, but there is no annual contraction during the summer months. "Only the unthinking and ill-advised," he says "charge the admitted stringency solely or largely to stock and bond speculation."

PREMATURE BLAST.

Mica Miner Meets Sudden End at Kingsmere, Quebec.

Ottawa, Jan. 10.—While blasting in a mine mine yesterday at Kingsmere, Quebec, William Fleury, miner, was struck on the head by a flying rock, and died in a few hours. Fleury put in the blast, lighted the fuse and was retreating when the explosion took place, a fragment of rock struck him in the temple piercing the brain. Fleury was 44 years old, a native of Quebec, and leaves a widow and two small children.

CIVILIZATION'S NIGHTMARE.

Conference of Foreign Missions Held at Philadelphia, Jan. 10.—Before adjourning today to meet next January in New York, the conference of foreign mission boards of the United States and Canada adopted a committee report recommending that the condition of affairs in Congo be called to the attention of the United States congress, President Roosevelt and the King of England.
